Shopping trolleys
Series EL

wanzl

Simply logical:

EL series

No fuss at the checkout

The most obvious feature of this trolley is the elegant base frame without rack, one of the reasons it is popular with sales staff. Basket volumes ranging from 75 to 240 litres are available, and the trolley has a space-saving stacking design.

Leg space

Safety

The EL shopping trolley was designed as a result of listening to our partners in retail. We developed it to reduce „stock differences, so checkout personnel can concentrate fully on the basket contents alone.

Our elegant solution - a stylish, open base frame of oval tubing which also provides extra leg space.
With its comfortable handle height the EL series can be easily pushed and loaded and unloaded.

Less technology - more profit

Careful manufacture
The distortion-proof baskets are accurately fashioned and the mesh is so narrow that even very small articles cannot fall through.
The handle with plastic sheathing can be provided with advertisements upon request and is screwed to the basket on the handle caps.
The wheels are attached to the base frame, which is made of robust oval tubing, to prevent theft.

3 years guarantee on the wheel function

Smooth running
Your "silent" trolley - original Wanzl castor wheels run on ball bearings, the rubber running surfaces and standard plastic deflector rings on the rear wheels ensure long-term smooth and silent operation. Noise-absorbing plastic hinges and fittings on the basket.

Permanent gloss finish
for Wanzl products. Only laboratory-tested coatings are used which effectively protect surfaces for years. We supply high-gloss galvanized-chromised coatings with baked plastic lacquer protection.

Guaranteed safety
All models of the EL series are manufactured in accordance with international quality directives and meet the requirements of
– the European EN 1929-1 standard
– the draft European standards prEN 1929-2

Corporate Idendity in motion - all day

As the constant companion of your customer, shopping trolleys transport goods equally as effectively as your messages. Make use of them for advertising!

Corporate identity is the central message of your market. Shopping trolleys in your corporate colour reinforce the overall image and round off the visual impression on your customers.
Your colour trolleys are available with laboratory-tested powder coating on a galvanized base in RAL colours which are suitable for foods.

7 attractive standard colours are available, e.g.

Flame red	**RAL 3000**
Pure orange	**RAL 2004**
Zinc yellow	**RAL 1018**
Green	**RAL 6024**
Ultramarine blue	**RAL 5002**
Light grey	**RAL 7035**
Anthracite grey	**RAL 7016**

Planning data

This page provides information and data to facilitate selection of a suitable trolley type and the correct number of trolleys.

Sales area
When ordering the trolleys the required quantity can be assessed by applying the rule of thumb one trolley per five square metres of shop area.

The goods range
The composition of the range on offer influences the selection of the size of the trolley type and the individual equipment.

Market type	Range of goods	Sales area (average)	Sales area (limits)	Location	Basket/ trolley volume	Trolley per 100 m²	Space requirements in m² for 10 trolleys
Self-service shop	Food	150	100-250	• Central location in residential areas of cities and medium-sized towns • City suburbs • Central locations in small towns	60-75	22	1,8
Self-service market	Food	300	250-400	• Rural communities with large catchment area • Central locations in residential areas of cities and medium-sized towns • City suburbs • Central locations in small towns	60-99	27	1,8
Supermarket	Food	650	400-800	• Rural communities with large catchment area • Central locations in residential areas of cities and medium-sized and small towns • City centre locations in cities and medium-sized towns • Central locations in medium-sized and small towns	75-100	20	2,1
Supermarket in department store	Food	1100	800-1500	• Sub-centres of cities • Central location in residential areas of cities, medium-sized and small towns • Central locations of medium-sized and small towns	90-130	19	2,3
Food section	Food	1000	400-1500	• Central communities and peripheral town locations	60-90	17	1,8
Discounter	Food	450	300-600	• Central city and medium-sized town locations • Central locations of residential areas of cities, medium-sized and small towns • City centre locations of cities, medium-sized towns with high customer frequency, generally in satellite locations of supermarkets	60-130	17	2,3
Consumer market	Food - Non-Food	2600	1500-5000	• Central business locations in city sub-centres when no department store established • Central business locations of medium-sized towns • Small towns with central character	100-130	16	2,3
Self-service department store	Food - Non-Food	8900	ab 5000	• Traffic-oriented city and medium-sized town peripheral locations • City industrial regions • Supraregional centres • Towns with central supply function for rural areas	130-212	13	2,7
Drugstore		250	200-400	• Highly-frequented city locations	60-75	25	1,8
Drugstore		450	400-600	• Highly-frequented city locations	60-90	22	1,8

Wanzl shopping trolleys

More than 20,000 tonnes of steel wire, more than 12,000 tonnes of metal tubing and a tremendous amount of design know-how - this is needed to produce one million shopping trolleys per year, each with an equally high standard of quality as the next - robust premium products with customer-friendly handling and smooth running, taken for granted as „companions of customers“ all over the world - every day.

Additional shopping trolley types:

Shopping trolleys for children

Shopping trolleys for conveyors, carrier systems, with brakes

Shopping trolleys for wheelchair users

Shopping trolleys for special markets, furniture stores, garden centres, DIY stores

Shopping trolleys for cash-and-carry markets
